### EDITOR'S NOTE

We can say that one month for the New Year has gone already and no doubt, if you love your home like I do, you should have some idea of your next home project. Whether it's a small or big idea, you may need some help in selecting your choice of colours, fabrics and furniture; many of you may not have a clue regarding the style that matches up with your lifestyle.

For sorting out all your ideas, we invite you to flip through our pages every month to get the latest news and inspiration on what's happening in the kitchen, including house buzz, design and décor tips and trade secrets.

We also look forward to hearing from you. Feel free to send in your comments or request for advice at [athome@guardian.co.tt](mailto:athome@guardian.co.tt).

Cheers,
